

Dear Colleagues,

A student from the University of Bonn, enrolled in the M.Sc. program Psychology, Clinical Psychology and Psychotherapy, is attending your course as part of an ERASMUS mobility and intends to apply for credit recognition upon completion of the stay abroad. As this degree program leads to licensure under the German Psychotherapists’ Training Regulation (PsychThApprO), the recognition of external coursework is subject to strict requirements. For this reason, **official confirmation of full attendance by the lecturer is mandatory for each individual session.** This document serves to facilitate attendance documentation. **By signing this document, you confirm that you have personally verified the participant’s full attendance throughout the entire event and that the brief summary accurately reflects the course content of the respective session.**
